# The Valencia Collection

The Valencia range illustrates the evolution of 'Artistry' (In Iron Ltd.) from its early wrought iron style furniture, to the bold and confident statement made by this clean contemporary collection. The substantial, robust, proportionate but simple lines create a vision of substance with balance. Artistry owes much to its valued 'Interior Designer' customer base for their input, guidance and encouragement in the development of this significant range. Construction throughout is of fine quality cold formed square hollow steel sections to give superb finish to the final product. Toughened safety glass of 10mm thickness in clear or sandblasted finish is supplied for all tops and shelves.

As can be seen the range is extensive, offering choice in the dining room and bedroom and for occasional tables, display shelves, mirrors and TV/video units. The design is of particular appeal when coated in the 'high sheen silver' finish as illustrated which on this range is offered as standard. Naturally, an extensive range of other finishes are available together with a wide choice of 'Artistry' fabrics or the option to cover in the customers own materials.
